

Summarizer-chrome-extension

Contributor - Utsab Khakurel

Overview:

Our chrome extension redirects to the website which summarizes the article on the active tab.

Steps to install and use the extension:

1) Download the crx file from the link below

<https://github.com/Utsabab/Summarizer-chrome-extension/blob/master/TextSummarizer.crx>

2) Click the three-line button in the top right-hand corner and go to Tools > Extensions.

Add a check to the box next to Developer mode at the top of the page.

3) Locate the *.CRX file on your computer, then drag and drop it onto the Extensions page.

A pop-up will appear showing you the permissions the extension will have, and asking you to confirm the install.

Click Add to finish the installation.

4) Go to the website you want to summarize and click on the extension on the tab.

Click "Check this page now".

Then, click on the summarize button.

5) The summary and the link to the summarized article will be displayed.
